Subject: Re: NLH - 2025 Capital Budget Supplemental Application - Application for the Purchase and Installation of a Runner at the Cat Arm Hydroelectric Generating Station - Revised Review Schedule

Good Afternoon.

The revised schedule set by the Board for the above noted application had a deadline of Tuesday, March 18 for submission of comments by the parties. Newfoundland Power advised they had no comments, and there were no comments received from any of the other parties. Hydro respectfully requests that the Board approve the application as submitted.

Thank you,
Shirley
