

- 1 **Q. Please confirm that a net metering customer cannot use energy generated to pay its**
2 **basic customer charge and regardless of energy generated and used, will receive a**
3 **monthly bill to reflect, at least, the basic customer charge.**
4
- 5 A. It is confirmed.
6
- 7 The proposed Net Metering Service Option enables customers to use their own
8 generation to offset only their energy consumption. Customers availing of Net Metering
9 Service will continue to be billed for the other components of their rates, tolls and
10 charges, including the Basic Customer Charge and, if applicable, the Demand Charge.¹

¹ Newfoundland Power's General Service customers are required to pay a monthly demand charge. Domestic Service customers do not pay a demand charge.
