

1 **Q. In section 3.4 (lines 7-9) titled "Canadian Utility Practice", the Applicant**
 2 **references utilities throughout Canada and the offer for EV load management**
 3 **pilots to be small samples of EV drivers in their service territory.**

4 **(a) Please advise as to which utilities the Applicant is referring and the**
 5 **number of vehicles in each of the jurisdictions referenced and the number**
 6 **of customers for those utilities in these jurisdictions.**

7
 8 A. (a) Newfoundland Power is referring to the utilities included in its survey of *Canadian*
 9 *Utility Practice on EV Load Management Strategies*, as provided in Attachment B to
 10 the *EV Load Management Pilot Project* report included with the Application.

11
 12 For the number of vehicles registered in the provinces of the surveyed utilities, see
 13 part d) of the response to Request for Information CA-NP-010.

14
 15 Table 1 provides estimates of the customer bases of the surveyed utilities based on
 16 the most recent information published by each.

Table 1 Estimated Customer Base of Surveyed Utilities	
Surveyed Utility	Customer Base (000s)
FortisAlberta	584
ENMAX Power	551
SaskPower	550
Toronto Hydro	768
Hydro Ottawa	354
London Hydro	166
FortisBC (Electricity)	188
BC Hydro	2,200
Nova Scotia Power	525
Hydro-Québec	4,450
