

- 1 **Q.** (Reference Application and Board Order P.U. 14(2023)) In Order No. P.U.
2 **14(2023)** (Page 6), the Board states "*The 25 MVA power transformer which*
3 *will be purchased provides the maximum coverage and risk mitigation for in-*
4 *service power transformers."*
- 5 a) Does NP agree with this statement? Please elaborate.
6 b) Please provide the evidence and source that supports the Board's statement
7 that a 25 MVA transformer spare "*provides maximum coverage and risk*
8 *mitigation for in-service power transformers"*.
- 9 c) Has NP taken delivery of the 25 MVA transformer? And if not, when does
10 NP expect delivery to take place? Please provide the final cost of same and
11 how that cost compares to budget.
- 12
- 13 A. a) See part a) of the response to Request for Information CA-NP-032.
14 b) See part a) of the response to Request for Information CA-NP-032.
15 c) Newfoundland Power expects delivery of the 25 MVA power transformer to occur in
16 the second quarter of 2024. The project is forecast to be on budget.
