

- 1 **Q. (Reference CA-NP-109c)**  
2 **The RFI asks NP to identify the reduction in the risk to the reliable operation**  
3 **of the substations before and after the proposed capital expenditures. Is NP**  
4 **able to quantify the risk before and after the proposed project? If so, please**  
5 **provide the requested information.**  
6
- 7 A. Newfoundland Power is not able to quantify the risks before and after the proposed  
8 NWB, SMV, and LOK Substation projects.  
9
- 10 See Newfoundland Power's *2025 Capital Budget Application, 2025 Capital Budget*  
11 *Overview*, Appendix C for the methodology used to complete risk assessments.
