

1 **6.2 Asset Management Technology Replacement**

2

3 **Q. Page 11-12. Does the current project scope and cost include the cost and**
4 **labour to transfer existing data and programs to the new system?**

5

6 A. Newfoundland Power confirms that the current project scope and its associated cost
7 encompass the expenses and labour required to transfer existing data, integrate the
8 identified technologies and meet current functionality.
