2
3 **Q. (Section 5, page 5-5) The press release quoted in Footnote 8 is almost 2 years old.**
4 **What is the latest news on Memorial University’s plans to install electric boilers?**

5
6 A. Memorial University’s electric boiler project is proceeding. Newfoundland Power
7 received an update from Memorial University on March 4, 2024. The update indicated
8 that Memorial University has received a preliminary construction schedule from its
9 construction contractor. The substantial completion date for the project is now scheduled
10 for August 2025. At the time of filing the Company’s *2025/2026 General Rate*
11 *Application*, Memorial University’s anticipated completion for the project was late 2024.
