

- 1 Q. Please confirm that despite the 2014 revenue deficiency being calculated at  
2 \$38,722,000 (or less, if the 2014 revenue deficiency balance is not included in 2014  
3 rate base), the 2015 test year rate base includes the 2014 revenue deficiency at  
4 \$44.2 million (per Exhibit 2, Table 28, of the GRA Compliance Application). Please  
5 provide all rationale for including this revenue deficiency in rate base at a higher  
6 value than now calculated as the 2014 revenue deficiency per the Compliance filing.  
7  
8
- 9 A. Please see Hydro's response to NP-NLH-004.
